COMPARATIVE AESTHETICS: A WORKBOOK

Dear Dr. Powell:

Your proposed book sounds extremely interesting, but I am afraid we will have to suggest that you try another publisher with a stronger emphasis on the arts. Marketing the book would be our biggest problem, since we publish primarily in the fields of international relations, public policy, economics, and science and technology.

Thank you for giving us a chance to consider your manuscript and good luck in placing it elsewhere.

Cordially,

Elizabeth Rehn
